- On-site manufacturing
- Military spec products available

Company Overview

Originally founded in 1972 as Electrographics International Corporation, EIC Solutions, Inc. is a leading global provider of electronic protection solutions, specifically focusing on thermal management. Since 1988, we have specialized in the design and manufacture of thermoelectric cooling systems, electronic equipment enclosures, and transit cases for a wide range of industrial, commercial, military, and defense applications.

Our thermoelectric enclosure air conditioners, compressor-based enclosure air-conditioners, air-conditioned electronic/electrical enclosures and air-conditioned transit cases are the ideal solution for housing, protecting, and cooling electronics – both stationary and mobile – in harsh indoor and outdoor environments.
